

# Get a CASH REBATE & Generate Your Own Electricity energy from the sun and wind

**A**re you a customer of a local, publicly-owned electric utility? (See reverse.)

You could get a rebate\* for up to half the cost when you purchase and install a renewable electric generating system at your home or business.

- Solar Photovoltaic
- Small Wind

*NOTE - Fuel cells using renewable energy and solar thermal electric also eligible.*

## Requirements:

- Purchase and install a PV or wind system after December 19, 2001.
- System capacity must be 10 kilowatts or less with a five-year warranty.
- Must be grid-connected.

**Apply early! Funds are limited.**

\* Not eligible if receiving incentive from your local utility program. Rebate may be subject to income tax.
